Objective

Computer Science undergraduate (AI & ML specialization) seeking a front-end development internship. Builds responsive, accessible interfaces with React, JavaScript, TypeScript, and Next.js, including a deployed animated portfolio, a six-view study planner, and a streaming chat UI. Also builds Python and FastAPI backends, so comfortable integrating front ends with APIs.

Education

Christ University, Kengeri Campus — Bangalore, India
B.Tech in Computer Science and Engineering (AI & ML Specialization) — *CGPA: 3.2/4.0* — *Expected Graduation: 2029*

Sacred Heart International School — Marthandam, Tamil Nadu
Class XII, ISC Board — *Percentage: 90.25%* — *2025*

Sacred Heart International School — Marthandam, Tamil Nadu
Class X, ICSE Board — *Percentage: 91%* — *2023*

Technical Skills

- **Languages:** JavaScript, TypeScript, HTML, CSS, Python, SQL
- **Frameworks & Libraries:** React, Next.js, Vite, Motion (animation), Tailwind CSS, Zod
- **Web Development:** Responsive Design, Reusable Components, REST API Integration, Streaming UI, Accessibility (ARIA, Reduced Motion)
- **Tools:** Git, GitHub, VS Code, npm, Vercel, Render
- **Additional:** FastAPI, SQLite, Java, C, C++, Data Structures & Algorithms

Projects

Personal Portfolio Website | Live | Code — *React, Vite, Motion, JavaScript, CSS, SVG*
- Built an editorial portfolio from reusable React components, opening six projects as full-screen case views with shareable links and Back-button support.
- Made layouts responsive across phone, tablet, short-screen, and touch devices with 14 media queries, and honored reduced-motion settings in animated components.
- Added ARIA labels, focus return for menus and case views, and contrast-checked colors; verified the production build.

Daymark – Personalised Study Planner | Live — *React, TypeScript, Vite, CSS*
- Built six responsive views (Home, Plan, Subjects, Progress, Revision, Insights) with a pausable session timer and confidence check-ins.
- Implemented a rule-based (regex and keyword) parser that proposes plan changes from free-text requests for users to accept or reject, persisting state in localStorage.

AI Personal Tutor | Live — *Next.js, TypeScript, Tailwind CSS*
- Built a streaming chat UI that renders tutor replies as Markdown, plus interactive quiz, upload, and progress pages.
- Connected the UI to the app's API routes for Gemini-generated tutoring and quizzes, styled with Tailwind.

Certifications

- Software Engineering and Agile Software Development – Infosys Springboard (Jun 2026)
- Design Thinking – Infosys Springboard (Jun 2026)
- Programming Fundamentals using Python (Parts 1 & 2) – Infosys Springboard (May 2026)
- Introduction to Data Science and AI – IIT Madras, Centre for Outreach and Digital Education (Apr 2025)

Languages & Interests

- **Hackathons:** Participated in Adobe University Hackathon (Adobe) and InHack Hackathon, Media Meet 2026 (CHRIST University)
- **Languages:** English (Fluent), Tamil (Native), Malayalam
