Objective

Computer Science undergraduate (AI & ML specialization) seeking a Python development internship. Built a Python and FastAPI backend with 12 REST endpoints, SQLite persistence, and 24 passing tests, and full-stack web applications using HTML, CSS, and TypeScript. Grounded in data structures, algorithms, OOP, and software engineering and Agile coursework.

Education

Christ University, Kengeri Campus — Bangalore, India
B.Tech in Computer Science and Engineering (AI & ML Specialization) — *CGPA: 3.2/4.0* — *Expected Graduation: 2029*

Sacred Heart International School — Marthandam, Tamil Nadu
Class XII, ISC Board — *Percentage: 90.25%* — *2025*

Sacred Heart International School — Marthandam, Tamil Nadu
Class X, ICSE Board — *Percentage: 91%* — *2023*

Technical Skills

- **Languages:** Python, SQL, HTML, CSS, TypeScript, Java, C, C++
- **Backend & Frameworks:** FastAPI, REST API Development, SQLAlchemy, Pandas, Next.js, Zod, Tailwind CSS
- **Databases & Tools:** SQLite, MySQL (Fundamentals), Git, GitHub, VS Code, Google Gemini API, Vercel, Render
- **Core Competencies:** Data Structures & Algorithms, OOP, Unit Testing, Software Development Lifecycle

Projects

FakeGuard – Social Media Account Risk Analyzer — *Python, FastAPI, SQLAlchemy, SQLite, React*
- Designed a FastAPI backend with 12 REST endpoints for account scoring, dashboard analytics, and CSV batch import, persisting data in SQLite through SQLAlchemy.
- Implemented explainable 0–100 risk scoring over five weighted behavioral features, with reason codes and weight renormalization when metrics are missing.
- Generated 1,006 synthetic test accounts with Pandas and validated the engine and API with 24 passing pytest tests.

AI Personal Tutor | Live — *Next.js, TypeScript, SQLite, Google Gemini API*
- Built a full-stack web app with server-side API routes for tutoring, quiz generation, and PDF/TXT uploads, backed by a six-table SQLite schema.
- Validated Gemini-generated quizzes with Zod schemas and graded answers server-side to keep answer keys private.
- Added Gemini model fallback on rate-limit and outage errors and deployed the app on Render.

Daymark – Personalised Study Planner | Live — *React, TypeScript, CSS*
- Built a responsive React and CSS interface backed by typed TypeScript planning and exam-readiness logic.
- Wrote a rule-based regex parser that turns free-text requests into explained plan changes for user approval.

Certifications

- Programming Fundamentals using Python (Parts 1 & 2) – Infosys Springboard (May 2026)
- Software Engineering and Agile Software Development – Infosys Springboard (Jun 2026)
- Introduction to Data Science and AI – IIT Madras, Centre for Outreach and Digital Education (Apr 2025)
- Azure AI Fundamentals – Microsoft, via Certiport (Sep 2026); Introduction to Modern AI – Cisco Networking Academy (Sep 2026)

Languages & Interests

- **Hackathons:** Participated in Adobe University Hackathon (Adobe) and InHack Hackathon, Media Meet 2026 (CHRIST University)
- **Languages:** English (Fluent), Tamil (Native), Malayalam
