Objective

Motivated Computer Science student specializing in AI & ML, with a strong foundation in Java, C/C++, and Python. Seeking a Software Engineering Internship to apply programming and problem-solving skills to real-world software and hardware development. Adept at building practical embedded systems and software solutions, solving data structures and algorithms challenges, and quickly learning new technologies to deliver impactful results.

Education

Christ University, Kengeri Campus

B.Tech in Computer Science and Engineering (AI & ML Specialization) CGPA: 3.2/4.0 Expected Graduation: 2029 Bangalore, India

Sacred Heart International School

Class XII, ISC Board Marthandam, Tamil Nadu Percentage: 90.25% 2025

Sacred Heart International School

Class X, ICSE Board Marthandam, Tamil Nadu Percentage: 91% 2023

Technical Skills

- **Programming Languages:** Java (Core), C, C++, Python
- **Databases:** MySQL (Fundamentals)
- **Tools & Platforms:** Git, GitHub, VS Code, Arduino IDE
- **Core Competencies:** Data Structures & Algorithms, Embedded Systems, Object-Oriented Programming

Projects

Robotic Arm

Arduino Uno, Servo Motors, C/C++

- Designed, assembled, and programmed a robotic arm using programmable servo motors to autonomously perform pick-and-place operations.
- Engineered and tested control logic in C/C++, successfully demonstrating precise object manipulation.

Gesture-Controlled RC Car

ESP32, MPU6050, TB6612FNG, N20 Motors

- Built and programmed an RC car operable via real-time hand gestures, integrating an MPU6050 motion sensor with an ESP32 microcontroller.
- Implemented wireless communication and motor driver control (TB6612FNG) to achieve smooth, responsive gesture-based navigation.

Agricultural RC Robot – Seed & Water Dispenser

Arduino/ESP32, DC Motors, Water Pump

- Developed an autonomous agricultural robot capable of dispensing seeds and watering plants using coordinated motor and pump control.
- Designed hardware wiring and control logic to successfully automate core farming tasks.

Password Strength Analyzer

Python, Regular Expressions

- Designed and implemented a Python-based tool that evaluates password strength using regular expression pattern matching.
- Delivered accurate, criteria-based feedback to classify passwords by security strength.

Certifications

- Introduction to Data Science and AI – IIT Madras, Centre for Outreach and Digital Education (Apr 2025)
- Programming Fundamentals using Python – Part 1 & 2 – Infosys Springboard (May 2026)
- Software Engineering and Agile Software Development – Infosys Springboard (Jun 2026)
- Fundamentals of Responsible AI – Infosys Springboard (Jun 2026)
- Design Thinking – Infosys Springboard (Jun 2026)

Languages & Interests

- **Languages:** English (Fluent), Tamil(native), Malayalam
